REMARKS

This is UNEVALUATED Information

25X1

1. Prior to 30 November 1950, the 23d Inf Regt was subordinate to an infantry division in Susice (N 50/U 28) and was stationed in Myrsko (N 50/U 99). The unit was expanded from battalion to **regimental** size as late as the summer of 1950. *
2. In November 1950, the regimental headquarters, headquarters company of 100 MM, technical company, submachine gun company, transport company of 30 men, and the I and II Bns were located in a barracks installation just south of Myrsko. The heavy weapons company, mortar company, gun company and the III Bn were stationed in Bystrice (N 50/U 99); the reconnaissance company was in Lany (N 50/U 98).
3. Drivers of the regiment were sent to Prague and Slovakia to pick up additional trucks in late November 1950. It was said that the regiment was going to be motorized.

25X1

- * Comment. . According to the present report, it is believed that the 23d Inf Bn was reorganized into an infantry regiment of three battalions. It is probable that all other infantry components of the 2nd Inf Div, formerly a brigade, were expanded in the same manner.
